DIVISION MEMORANDUM

No. 125 s. 2026

**ONLINE ORIENTATION-WORKSHOP FOR THE DIVISION ROLLOUT OF INSIGHTED
MOBILE APPLICATION FOR SCHOOL HEADS**

TO : Public Schools District Supervisors
All Public Elementary and Secondary School Heads
Division Engineer
Division Information Technology Officer
Division Planning Officer

1. In line with the Department of Education's commitment to modernize educational management through data-driven decision-making, the Human Resource and Organizational Development and Infrastructure (HRODI) Strand has developed the **InsightEd Mobile Application** for school heads.
2. **InsightEd** serves as the dedicated mobile data collection tool of the Strategic Resource Inventory for the Deployment Efficiency (STRIDE). It is designed to bridge the gap between physical school environments and digital databases used for strategic planning across governance levels in the Department. Its primary purpose is to streamline the process of capturing real-time, granular school infrastructure and resource data directly at the school level.
3. To facilitate the rollout of the application, an online orientation-workshop will be conducted for all public-school heads on April 10, 2026, Friday at 8:30 AM onwards via bit.ly/4mc1rKq.
4. The orientation aims to equip school heads with the knowledge and skills needed to create accounts, access and utilize the application and understand its eight (8) content units.
5. Attendance and active participation of all public school heads are highly encouraged.
6. Immediate dissemination of and strict compliance with this Memorandum are hereby enjoined.

CARMEL T. MERIS
